A New Gold Metal! THE GOLD METAL WATCHES! NOW BEING INTRODUCED BY

C. E. COLLINS & CO., 629 WASHINGTON ST., SAN FRANCISCO,

SURPASS ANYTHING YET made in the way of an imitation Gold Watch. The Ladies' Watches cost \$8, \$10 and \$15 each; the Gentlemen's cost \$15 and \$20 each.

CHAINS FROM \$3 TO \$6 EACH RECOMMENDATIONS:

SAN FRANCISCO, May 12, 1869. This is to certify that I have carried one of the small size Gold Metal Watches which I got of C. E. Collins & Co., and I find that it runs as well, and keeps as good time as any watch I ever carried, and I can therefore recommend them. I am engaged on Sacramento steamer Chrysopolis.

I am engineer on the San Jose Rallroad; I have been carrying one of C. E. Collins & Co.'s watches for about one year, and I can safely say it is the very best watch for time that I have ever seen.

GEO. CORNWALL,

Engineer on the San Jose Railroad. Messrs. C. E. Collins & Co.-I wish to know on what terms you will send five or six watches to one address. Several of the men in this machine shop are highly delighted at the watch I got of you; I am very much pleased with it; it gives satisfaction. Hoping to hear from you soon, I remain yours, &c.

R. B. PATTON, Clerk, Toano, C. P. R. R.

For List of Prices and description of Goods, send directly to us. Can be sent by express, to be paid for on delivery.

C. E. COLLINS & CO.,
629 Washington street. San Francisco. P. S.—Where six Watches of the above are ordered at one time, we will send one extra, free of all charge. We also deal in the finest Gold and Silver Watches, watchmaker's and jeweler's tools and materials, at the very lowest possible rates.

[Alpine Miner.] The new Gold Metal Watches now being introduced by C. E. The new Gold Metal Watches now being introduced by C. E. Collins & Co., of San Francisco, seem to be just the thing for those desiring a cheap and at the same time good-looking time-keeper. One of the young lady compositors in our office has one of the cheapest kind advertised—\$8—which runs well, and keeps good time, looks well, and seems to fulfill all the requirements of a high-priced watch. The chain sent with the watch is of exquisite design and high finish. See their advertisement in another column.

[La Porte Union.] WATCHES.—We have received one of the new Gold Metal Watches from C. E. Collins & Co., of San Francisco. It is neatly finished, hunting case, keeps good time, and is without doubt the best watch for the price that can be purchased in

[Spectator.] BUSINESS NOTICES. What Next!—Cheaper than silver—looking and wearing like gold—neither plated nor galvanized—are the new Gold Metal Wasches we saw last week at our friend Collins. If we had not a gold watch—which we have to pay each year \$2 to "Uncle Sam" for the privilege of wearing—we certainly would have a Gold Metal Watch. 089 3m

NOTES OF THE WEEK. TEMPERANCE LECTURE.-A full and appreciative audience was collected at the Bethel chapel on Tuesday evening last, to hear the Rev. A. O. Forbes' lecture on the somewhat trite but never uninteresting subject of temperance. In the outset, however, the lecturer discarded the word "Temperance," as a misnomer when applied to the great movement IN BBLS. SPRING CATCH, AND A CHOICE now in progress against the use of alcoholic drinks, article, for sale by (600 2m) C. N. SPENCER & CO. and declared that total abstinence was the watchword. The present age-the nineteenth centurywas not an age in which to trifle, or adopt half measures of reform. Its spirit called for combined, earnest and thorough action. He compared the conthis life. The duty of the total abstinence associa- Everett as an auction room. tions of the present day was not complete when they had banded themselves together under a pledge of personal abstinence, but they must exert themselves to rescue the fallen brother, and lead him in the paths of sobriety, usefulness and respectability. They had a great work to do, and while they must have the hearty God-speed of all friends of humanity, he trusted that they would receive also the substantial aid of active co-operation in this great and noble cause. At the conclusion of the lecture, which was listened to with marked attention and frequent applause, Mr. C. J. Lyons made a few animated remarks and concluded by thanking the Reverend gentleman, in the name of Ultima Thule Lodge, for his eloquent address. It was intimated that similar pices of the Good Templars.

pression that seemed for a while to prevail abroad, that the whole solid island had more or less settled Especially Selected for this Market, down into the sea, seems to have been entirely incor- THE INTERNATIONAL BOAT RACE .- We understand which we noticed as having seriously damaged a bly get the news in eleven days from England. never before known to have been covered. This would more easily be accounted for on the supposition that the land was lower, than by allowing that the sea rose higher than ever before. The area of subsidence does not seem to have extended very far inland, as a number of very extensive cracks, diagonal or nearly parallel with the coast, would appear to indicate where, so to speak, the shelf of subsided land broke from the main island mass. These facts are interesting as bearing on various geologic theories relating

> A NEW STORE .- We have recently looked in at the new brick fire proof building of Messrs. E. O. Hall & Son, on the corner of Fort and King streets, and for neatness and convenience it quite comes up to our notions of a first class establishment, for the business for which it was designed. Starting from a solid stone foundation, the walls are of brick and rising two stories, of good height, it is covered by a substantial slate roof, with nothing but metal, brick and stone, exposed to fire from the outside. The building is fifty-four feet on Fort street and fifty-two feet on King street, in the shape of water to the public as a pleasant, healthy drink. an L. The principal sales room is fifty feet by thirty | Their syphon bottles enable families to keep a soda ventilated. The fittings up are convenient, and do great credit to the taste and skill of the designer. The painting and graining is the neatest we have seen in building is a credit to the city, and to Mr. Osborne and, on the 26th of May. No lives lost. The crew the architect ; and we trust it will stimulate others to will come to this port on the Hawaiian brig Kamehaemulate the example of this business firm, who, in | meha V. securing for themselves more secure and convenient speak for them a continuance of that patronage with O.d Curiosity." which they have been favored during the sixteen

years they have occupied this stand. AT THE SALT LAKE .- This strange pond of water is still very low, and the collection of salt is going on at a brisk rate, some thirty or forty prisoners, contracted hands, and soldiers being employed. The whole lake is white with the deposit, which shows Grey Horse Blankets from beneath the shallow but excessively bitter waters. This deposit is first thrown together into heaps with shovels or oos, then put into bags, which are floated off to the landing on light rafts of two inch plank. Query : where does the salt all come from? If the lake has some connection with the sea, as is supposed, why does not its level keep the same at all seasons? It must now be some six feet lower than its highest level. Some of our amateur engineers of leisure would do well to ascertain the comparative level of the sea and this lake. The fresh water lake, in the adjoining crater, is entirely dry.

On Saturday last, the Acting Minister of lency Henry A. Peirce, the Minister Resident of the United States, which was honored by the presence of His Majesty. Mr. Peirce was accompanied by the al consent suspended. Her Majesty earnestly Consul of the United States, Mr. Adamson. There were also present His Majesty's Ministers, the Judges of the Supreme Court, the Governor of Oahu, M. Ballien, H. I. M. Consul Commissioner and his Chancellier M. Marinetti, Captain St. Hilaire, and Ensigns Gadaud and Grauger of ship-of-war Lamothe of the Irish Church, you have carefully kept in Piquet, His Majesty's Chamberlain, the Secretary of view several considerations which, at the opening the Foreign Office, the Consuls of North Germany, of the session, were commended to your notice. By the arrival of the American ship War Hawk, Capt. Williams, and Am. bark Comet, Capt. Fuller in 13 days from San Francisco, we have San

Francisco daily papers of the 13th inst. New York, August 4 .- The seizure of the Spanish gunboats still attracts attention. Delamater has had an interview with Marshal Barlow relative o the ultimate course to be pursued by the Government about the Spanish gunboats. It is undertood that the Marshal informed him that he should rigidly obey the orders of the Government for the appression of filibustering, whether by Cubans or paniards, and that the vessels will be held until eir release is ordered by the authorities at Wash- in 1871.

The Cuban Junta to-day forwarded a protest to resident Grant and Secretary Fish, against the oposed purchase from the Spanish Government. leging that two-thirds of the island is owned by ative Cubans, and is now held by the authorities. NEW YORK, Aug. 10 .- The Cuban Junta has eceived authority from President Cespedes to ssue letters of marque, as soon as they are sure that the Cubans have a seaport. They expect that

ported that fifteen thousand men will soon start Washington, Aug. 11 .- It is understood that the dovernment will take no action in the case of Haggerty, recently rejected as Consul at Glasgow -the Fenian question having assumed such a complexion that the administration has no desire to

wo vessels will soon be commissioned. It is

further complicate the subject. WASHINGTON, Aug. 12 .- It is reported that Gen. Prim intends to offer the Crown of Spain to King Louis of Portugal, in which case Spain and Portugal will be governed in a similar manner to Austria and Hungary. The King would divide his residence between the two capitals.

The New York Evening Post of August 5th says the arrest of John McCortney, Patrick Carroll, Samuel H. Harrison, Thomas Byrnes, Frederick Holtzer, George C. Haggerty and James Wood by Col. Whitly, of the Secret Service, aided by detectve Farley, on charges of cleaning and selling canelled revenue stamps, was announced in our first lition. The investigation made by the officers thus far shows that the fraud is much more extensive than at first supposed. More than fifty thousand dollars in cancelled stamps which have been leaned and resold have been traced, and a large part of them is now in the bands of the police. Three additional arrests were made to-day by detective Farley. The names of those prisoners are Mitchel Burns, Thomas Bernard and James aird. The latter is a porter at No. 10 Wall street, and the two former were engaged in purchasing the cancelled stamps from porters and office boys in banks, banking houses and lawyers' offices. The men are said to have had a complete organization. A number of them visited offices in the lower part of the city especially in Wall street, where stamps of a large denomination are more frequently used, and purchased the cancelled stamps from porters a fraction of their original free value. The rters and messengers overhauled the cancelled necks, receipts and other papers, and generally moved the stamps after the close of the day. The collectors, it is said, took the stamps to Harison, who was arrested last night, and who it is alleged, is a receiver of stolen goods at No. 370

here give an account of several engacements be-tween the insurgents and Government troops, in Bluegown, the favorite. The Cubans have possession of several points on the coast, affording direct communication. A battery of artillery, with 3,600 men from the United States, was cessfully landed near Neuvitas, and is now a part of Quesada's force. Sickness is reported as abating. Quesada and Jordan expect soon to take the field with a force fully equal to their

> New York, Aug. 3 .- Marshal Barlow, acting under the general commission, this morning, caused seizure of 8 gunboats, recently built by order of the Spanish Government, lying at the iron works of Delameter & Co. He believed they were intend- Fenian movement. ed to be used against Peru. The rest of the fifteen built here having been removed to Greenport, Long Island, dispatches have been sent there to effect a seizure. The Marshal also dispatched an officer to Mystic, Connecticut, to seize fifteen additional gunboats constructed and being fitted out for Spain. It appeared, from representations made to Marshal, that the vessels were intended to violate the neutrality laws, and the guns were to be placed on board of each, before leaving. Another report says the seizure was ordered by the Washington authorities.

Marshal Barlow has received a joint letter from Cols. Ryan and Currier, at Clifton, Canada, asking rmission to return to New York, on giving their arole to appear for examination for treason. He says the request cannot be granted. New York, Aug. 3 .- The Sun asserts that the Administration has opened negotiations with the

present Government of Spain for the independence of Cuba. Gen. Sickles has already presented the subject to the Minister of Foreign Affairs at Madrid. telegram has been received at Washington that proposition which Gen. Sickles has laid before Marshal Serrano and his associates, is as follows : Spain shall recognize the independence of Cuba, under the government of Cespedes; Cuba shall pay Spain indemnity for the resignation of rights hitherto exercised by the mother country, the amount of this indemnity to be specified in a treaty. The indemnity, whether fixed at a hundred millions, or fifty millions, or twenty-five millions, is to be in bonds by the Cuban Government, payable, with interest, at the expiration of a convenient period. The bonds to be guaranteed by the United States, an armistice to be proclaimed between patriots and Spanish troops in Cuba immediately upon the execution of the treaty. The island shall be evacuated by the Spanish forces as soon as the treaty is rati-fied by the representatives of the Cuban people, and guarantee of the bonds approved by the Congress body of Cornelius Grinnell, of New York, who fell of the United States. If these terms are not at once from the window of a club bouse in the Isle of accepted by the Spanish Government the United

States will without delay recognize the independence of Cuba. Quesada has completely destroyed communica-tion between Puerto Principe and the coast, and the telegraph communication with Havana. Were it not for the unhealthiness of the army he would have occupied it some time ago. Every effort of Gen. Letona to open communication has been un-successful. In the attempt to do it the Spanish loss will continue through the week. In the race for entire effective force does not exceed 4,000, while Quesada's is near 9,000, well armed and disciplined. The letters give accounts of numerous rumors of minor contests, in which the Cubans are invariably victorious. Gen. Jordan reports himself and troops in excellent condition, and expresses entire confi

dence in success. New York, August 6 .- Havana letters give the following from a Spanish standpoint: The rebels made an assault on Puerto Principe and were repulsed. The latest mail advices state that the ill ortune of the insurgents is continued. The forces of Jordan, Marmal, Marcano and Figueredo having attacked simultaneously the Spanish detachments on the estates of La Cruz, Santa Sidio, San Jose and Santa Isabel; also those at Palo Sirian and Villoge having been driven back at all points.

New York, Aug. 7 .- The Cuban Junta, in this city, have received official information from Cespe-des relative to the reception of the news in the patriot army of the late arrest of the Spanish gunpoats by order of the authorities in Washington. It represents the feeling produced to be one of enforce the neutrality laws with strictness and impartiality on the Spaniards as well as the Cubans.

They ask that Spain shall be prohibited for the Royal Viscouries of the Royal Viscouries and A Committee impartiality on the Spaniards as well as the Cubans.

They ask that Spain shall be prohibited from making the United States an entrepot, from which it relatives of Mr. Grinnell through Mr. Bennett. sends arms and munitions of war to be used against them. They will be content to fall under the same ban. So confident are they of coming out of the struggle victorious, if Spain be the only

power they have to contend against. There are rumors in Cuban circles that a deputation of native Cubans are now at the Court of Spain endeavoring to persuade that Government to sell the island to the insurgents. It is believed that Gen. Sickles had made a similar proposal, which was rejected with indignation. This rejection was the cause of the prompt action of the tion of a new Cabinet.

President in ordering the seizure of the gunboats.

on Cuba will be such that in less than thirty days they will have possession of the entire island out-side of Havana. They claim that the people of Cuba all sympathize with the Cespedes Government, and the disaffection of the Spanish troops would leave the Spanish Government without an

Office Department. The Commissioners of the World's Fair in 1851 have issued a prospectus for an International Exhi-bition of Fine Arts, Industrial Arts, and Inventions,

Paris, August 2. - The draft of the Senatus Consultum gives the Emperor and Corps Legislatif the initiative in making laws. Cabinet Ministers can be members of the Senate or the Corps Legislatif. The sittings of the Senate are to be public. Each oody is to make its own internal regulations, and members of both Chambers have the right to address interpolations to the Government. No amendment to a law is to be adopted unless it has been previously referred to a committee charged with the duty of examining the project.

London, August 3 .- The coming international boat race is still a matter of great interest. The London press generally comment in an unfavorable style on the Harvard crew. The latter were out again last evening on the Thames. They use a boat of London make and practice much better than before. They attained a higher rate of speed than with their own boat.

The yacht Dandless is in the harbor of Cowes. London, August 3 .- At the Royal Yacht regatta,

NEW YORK, August 4 .- A London letter says that a meeting has been held in London, consisting of the most eminent representatives of the Pacific colonies, and presided over by one of the most eminent colonial Governors-Wyatt. At this gathering general dissatisfaction was expressed with the political relations of their important and growing countries with the parent State. All the influential Colonists here present, representing in fact all the important interests of their respective settlements, have joined in the expression of a determination to equire some reconstruction of the British Colonial Empire which should offer them a guarantee that the interests of the various Colonies should receive prompt attention. In the event of this being found npracticable-and the sense of the meeting was ecided that it would be so found-it was declared by all present, that they should use their influence with their respective settlements to leave the British allegiance, and seek in some form protection from the United States, or at all events become in such manner as may be decided by members of the system of Government of the Great Republic. The eeting was not public, but its results are likely to be known at an early day.

A St. Petersburg letter states that the peasant who saved the Czar's life did not commit snicide, but was murdered in his own house. Several persons have been arrested for complicity in the crime. London, August 4 .- The Daily Telegraph says that France has now entered upon a career of na-tional development unexampled at any previous state of her existence. the ground that he was connected with the A dinner was given to the members of the yacht squadron at Cowes Castle yesterday. James G. Bennett, Jr., and many other Americans were present. Bennett's yacht, the Dauntless, remained at anchor yesterday, declining to enter the contest. London, Aug. 7.—The regatta of the Royal Yacht Club closed yesterday with a race of schooners over thirty tons. The course was around the Isle of Wight. There were eight entries, and the schooner Alice won, beating the Cambria 6 minutes. The Oxford crew are expected at Putney on Wednesday. The new boat for the Oxfords has arrived; it is forty-four feet long. The Harvards

greater than ever. The Lewes Handicap on the 6th was won by Priory, the Queen's Plate by Blueskin; the Lewes Grand Handicap on the 7th by Arlington.

were out for practice last evening; their speed is

thirty-six minutes. All well. London, Aug. 10.—The Times, to-day, in a long article on Spain and Cuba, defended the latter on the ground that the former was better off without Cuba than with it, and as she cannot hold it any way, she may think herself particularly fortunate if she gets paid for it.

The Harvard crew were out in their new boat

to-day, and being timed regularly, made forty

strokes in a minute. It is the common opinion that the boatmen of Harvard are less steady in their rowing than the Oxfords, but their strokes, although apparently short and deep, make good distance in a short time. Wednesday, the 25th of August, has been finally agreed upon as the day London, Aug. 11.—An inquest was held on the body of Cornelius Grinnell, of New York, who fell

Wight, yesterday. A verdict of accidental death was rendered. James Gorden Bennett, jr. and Sheppard Yeomsus, who were with him a short time previous, testified that he was sober. Gladstone has gone to the sea shore, at Walmer, to recruit his health. Cowes. August 12.-The regatta of the Royal

The International ocean yacht race will not take place, and the Dauntless will shortly return without sailing against the Cambria; but probably the latter will go to New York and sail in a race in their waters with American yachts.
